## Air & Surface PRO

- Reduces airborne contaminants and allergens
- Removes odors in stale environments
- Reduces particles such as dirt & dust from the air

Vollara's™ ActivePure® product line is based on technology originally developed by NASA for use during space travel. Now, you can take a proactive approach for any home or business with the **Air & Surface Pro**. It reduces up to 99% of airborne and surface contaminants such as mold, fungi, germs, viruses and odors within 30 minutes! It is the smart solution wherever it is used. Breathe the freshness of nature's air indoors with Vollara.

**\*The results from an FDA-compliant, independent third-party lab proved that the Aerus Model F203C with ActivePure Technology kills 99.98% of SARS-CoV-2 (the virus that causes COVID-19) on surfaces after 3 minutes. The same ActivePure Technology in the Model F203C is available in the Air & Surface Pro.**
